

## Portable Airfield Signs

COMPLIES WITH FAA AC 150/5345-39D

The iSeries Portable Airfield Signs are industry's most proven tactical airfield marking solution for retro reflective, illuminated and daytime operations. The dual face retro-reflective signage provides superior visibility while providing maximum portability. Both the taxiway identification signs and the distance to go signs are packaged and transported in a heavy duty military style carrying case for rapid deployment.

The sign face is constructed using a durable dual layer aluminum sign board which provides strength and rigidity while minimizing weight and size. Sign faces can be easily interchanged in any format to meet the specific needs of the user, whether informational signs, mandatory instruction signs or distance remaining markers. The marking signs require zero maintenance, no electricity costs or infrastructure and can be easily stored, transported and deployed at a moments notice. Optional solar lighting kits can be equipped with each sign for either visible or infrared operations.

i series

### FEATURES & BENEFITS

#### INCREASE SAFETY

Efficient, highly reflective visibility for day and night operations on the runway, taxiway and apron areas.

#### DECREASE COSTS

Zero electricity costs, no infrastructure, no maintenance and long service life.

#### COMPLIANCE

Compliant to FAA AC 150/5345-39D.

#### WEATHER PROTECTION

Delivers reliable operations, all hardware aluminum and stainless steel.

#### EASE OF INSTALLATION

Military design allows for rapid deployment and transportation of DRMs, hold position signs, taxiway indicators and apron way finding signs. Signs can be packed in a deployable duffel bag or transported with trailer. All signs are self supporting and secure easily into the ground.

# SPECIFICATIONS

## OPERATION

<b>Compliance</b>	FAA AC 150/5345-39D
<b>Configuration</b>	Airfield Reflective Portable Signage
<b>Operation Profiles</b>	Portable or Temporary

## MECHANICAL

<b>Sign Background Color</b>	Black – Powder Coat
<b>Sign Face</b>	Aluminum Omega Bond 3mm
<b>Sign Frame</b>	Aluminum Formed – Anodized Black
<b>Reflective Material Used</b>	Orafol Product
<b>Leg Support</b>	Foldable, Aluminum Formed, Blurs Removed, Anodized Clear
<b>Sign Column</b>	Aluminum 2" x 2" x 40" / Latches / Quick Release Pins / Anchor Stakes
<b>Weight</b>	29 lbs. (13.6 kg) approx.
<b>Dimensions</b>	Height 790 mm (42") / Base 610 mm (24")
<b>Carrying Case</b>	Heavy Duty Case, Military Spec, Black, Weather Resistant, with handles, vented, lockable, skid runners. / Size: 65x28x36 Approx.
<b>Dimensions</b>	Height 790 mm (42") / Base 610 mm (24")

## ENVIRONMENTAL

<b>Weather Proof</b>	Ice, snow and rain
<b>Wind Load</b>	200 kph (125 mph)
<b>Humidity</b>	0% to 100%

## WARRANTY

<b>Warranty</b>	1 year
